

Fact Sheet

REPORTING PROCEDURE FOR PRESENTATIONS OF ART

You can use the **reporting form „presentations of art“** to report presentations of your works. This affects the distribution lines „private copy royalties for analogue sources fine art“ and „private copy royalties for digital sources fine art“.

The „private copy royalties presentations of art“ as part of the billing of private copying remuneration covers circumstances for which Bild-Kunst has no reliable usage data available.

Reporting Deadlines

The closing date for the usage year is always **30th June** of the following year.

Reporting Procedure

You can submit your claim via the electronic registration portal or in writing through the forms provided by VG Bild-Kunst. These forms can be submitted by mail, by fax or sent as a scanned version by email.

The rules of the reporting procedure as per Paragraph 50 et seq. apply.

Reporting Requirements

With the form you can report all presentations of your works that correspond to the definition in Paragraph 43(8) of the distribution plan.

Examples for reportable presentations of art:

- *Presentations of art in the sense of the distribution plan are usually presentations of works of fine art in museums, art associations, galleries or municipal institutions. Permanent exhibitions and collections can usually only be reported in the first presentation year or with the acquisition of a work, because it then lacks sufficient public promotion.*
- *Works of art in public spaces and art in architecture, which can be seen publicly, can be reported once if the opening/handing over of the work of art takes place within the framework of a promoted event.*
- *Performances, participatory projects and video art are generally considered to be presentations of art in the sense of the distribution plan if a third party provides a venue for them and publicly promotes them.*
- *Artistic interventions, artistic walks, street art and spontaneous performances can be considered presentations of art in the sense of the distribution plan if they are presented to an extraordinary large public audience.*
- *Internet art can be considered if there is sufficient public promotion for it in Germany.*

Author details

You must always enter your **author number** and your **surname** in the category **author details**. You must personally sign the form at the bottom. If you choose the reporting procedure in writing and had to use several form sheets due to lack of space, you need to sign each form sheet!

Dates of the presentation

For the processing of your claim, we require some information on the respective presentation.

Title of the presentation

First, we need the title of the presentation that was used to promote and introduce it to the public, in order to identify it.

Category of the presentation

Please let us know in which category your presentation of art should be classified. This will help us for the necessary review. Please only tick one box. The notes in relation to the reporting requirements in this fact sheet will help you (see above).

Scope of the presentation

This indication is required, whether it is a solo show or a group show. If applicable, you also need to indicate how many artist(s) participated in the presentation.

Start of the presentation

You also need to indicate the month and year of the start of the presentation. This is required, because presentations can only be reported for the year of their verifiable start.

Venue of the presentation

The venue of the presentation is the locality where the presentation takes place. Please provide the name of the venue (e.g. name of the museum, art association etc.). Should there be changing localities, please indicate at least the venue at the start of the presentation and others, if possible. However, if it is not possible to specify a specific venue, the name of the organiser must be provided.

If Internet art fulfils the reporting requirements (see „proofs“), the organiser and web address where the presentation is located, must be specified instead of the presentation venue. „Presentation of Internet art“ should then be indicated for the location of the presentation.

Location of the presentation

In contrast to the specification of the presentation venue, the location of the presentation is actually the city in which the presentation takes place, supplemented by the postcode.

Presentations abroad can only be reported if they took place in an exhibition venue listed on a final list approved by the Advisory Committee of Bild-Kunst.

Background: The proceeds compensate for the production of private copies, which are made in Germany. Of course, reproductions of illustrations of works, which can be seen in an exhibition or presentation abroad, are also made in Germany. However, considering such copies requires that the foreign exhibition/presentation in Germany is known not only to art experts, but to a broader public. This does not apply to every exhibition.

The distribution plan stipulates that eligible foreign exhibition venues are listed on a final list created by the Advisory Committee of the professional group I. This is a general approach, but it serves the distribution justice, legal certainty and administrative simplification. The most up-to-date list can be found in the Annex.

Catalogue

A catalogue is a directory documenting the exhibits or illustrations shown during the presentation and giving background information on the presentation. Advertising material for the presentation, e.g. flyers, postcards or placards, are not considered as „catalogue“.

Proofs

Please be advised that Bild-Kunst may randomly review reports according to Paragraph 53(1) of the distribution plan. In this case, you must make your information plausible by providing appropriate proof. Example: If you had an exhibition at an art club, send us the flyer by email that was used to promote the exhibition.

In any case, you must submit some proof as the report can otherwise not be assessed. This is stipulated in the distribution plan in Paragraph 43(8a) in the following cases:

- Proof of the opening/handover event when reporting works of art in **public spaces** or **Percent for Art**;
- Proof of an extraordinary large public audience at **artistic interventions, artistic walks, street art** and **spontaneous performances**;
- Proof of sufficient public promotion in Germany in the case of **Internet art**.

Further Information

All reporting forms, the list of foreign exhibition venues that can be reported, and distribution plans can be found on our homepage www.bildkunst.de.

Please send your report to:

VG Bild-Kunst
Weberstraße 61
53113 Bonn
Germany

Fax: +49 228 9 15 34 39

Email: auswertung-bild@bildkunst.de

We are happy to answer any questions you may have on claims.

ANNEX: FINAL LIST “FOREIGN EXHIBITION VENUES” ACCORDING TO PARAGRAPH 43 (8C)

Biennials/presentations of art

supported or organised by:

- Venice
- Sao Paolo
- Kwangju
- Goethe Institute (First Stop)
- IFA (First Stop)
- manifesta
