

Supplementary Annexes to the Distribution Plan of VG Bild-Kunst

Annex VK (administrative costs)

The General Meeting of VG Bild-Kunst is authorised by law and the Articles of Association to make changes to the Distribution Plan. Under section 15 (1), however, the Distribution Plan delegates the authority to determine the administrative costs rates to the Administrative Council, as this is a circumscribed power which must be reviewed several times a year.

Direct income is income which VG Bild-Kunst realises itself or through other German collecting societies. Indirect income is income which VG Bild-Kunst realises through its foreign sister societies.

The payouts (from the 2021 year of usage) are made at the current cost rates set out in the table. These are governed by the date on which the payout is made, not the period of use covered by the payout. Exception: Payouts of collective distribution for the 2020 year of usage are made at the cost rates set out in the section entitled “Old distribution plan”, even if they are not made until the 2021 financial year or later.

Contractually defined deductions for the rightholders of GWFF (also for VGF and VFF) and GÜFA will be made from the direct income from private copying in respect of the hardware and storage media levy.
